# BURTON'S HILL TOP NURSERIES

J. Howard Burton

CASSTOWN, OHIO

PHONE — TROY, OHIO 28508

Berberis thunbergi nana  
(Plant Patent No. 189—See page 36)

OCTOBER 15, 1941

## WHOLESALE LIST

for the Nursery Trade

Lining Out Shrubs

Lining Out Evergreens

Lining Out Shade Trees

Finished: Shrubs, Vines,  
Shade Trees, Fruit Trees  
and Small Fruits

Members of

American Association of Nurserymen

Ohio Nurserymen's Association

Michigan Nurserymen's Association

Indiana Nurserymen's Association

All orders are packed to arrive in first class condition and we solicit your business on our ability to serve you honestly and quickly with good stock.

We ship by B. & O., N. Y. C., Pennsylvania and D. T. & I. railways, by Truck Line Freight or Railway Express.

**TERMS:**—Sixty days net to parties of approved credit established in advance of shipment. Cash with order 3%; 2% for payment within ten days of invoice, 1% 30 days. C. O. D. orders must be accompanied by  $\frac{1}{4}$  cash deposit. Boxing and bailing are charged for at cost. When cash accompanies order boxing will be billed to those of established credit, otherwise boxing charges will be sent as C. O. D., with shipment. We assure you that this additional charge will be reasonable and at actual cost. 5 or more at 10 rate; 25 or more at 100 rate. Less than 5 will be charged 25% higher than 10 rate. Any possible claims for rejection or deficiency must be made within ten days after arrival of stock. All shipments travel at cost and risk of the purchaser except when otherwise agreed. (See boxing table on page 35.)

### LINING OUT SHRUBS

Our lining out shrubs are mostly cutting grown and transplanted once in rows in the field where they have grown one or two years except those varieties customarily grown from hard wood cuttings. All seedlings, whether one year or two years of age, are specified as "S". Our pot grown shrubs are grown one full year in the frames out doors or are wintered over in a cool greenhouse. Our plants are of good size but not thin from over fertilization. They give excellent stands in the field and make new friends for us and keep the old ones.

	Per C	Per M
Abelia grandiflora, 6 to 12 in.	7.50	60.00
Almonds, pink flowering, Pot grown,	6.00	55.00

### DECIDUOUS GRAFTS

The understocks for these deciduous grafts are established one year in 2 1/4" and 2 1/2" deep rose pots before grafting, thereby insuring a well established and pot bound plant.

	Per C
<i>Acer palmatum atropurpureum,</i>

### EVERGREEN GRAFTS

These grafts are out of 2½" and 2½" deep rose pots and are on strong well established understocks of the same families, ie: Juniperus are grafted on Juniperus virginiana understocks; Kosters Spruce on Spruce, etc.

For shipment we wrap the pot balls individually in sphagnum moss then in waxed paper to preserve the moisture and prevent undue breakage of the ball. We know of no better method of packing grafts.

#### TESTIMONIAL

(Here is one of many testimonials we receive from our customers)

Hilltop Nursery  
Casstown, Ohio

Gentlemen:

The nursery stock you shipped us was the finest we have ever received from anybody anywhere.

You will get a good order this coming year from us.

Very truly yours,

(Name upon request)

# GLOBE BARBERRY

(Plant Patent No. 189)

## (*Berberis thunbergi nana*)

See Prof. Chadwick's Select List of Shrubs

Ordinary Barberry

Berberis nana  
(Natural Shape)

This is a low, slow growing and compact sport of the well known hardy Barberry. It's compact, tight growth makes a trim appearance without shearing. This plant never gets out of hand as do common Barberry plants and the foliage is better than that of the parent and it has the same kind and color fruits. Its appearance is somewhat like that of a dwarf Holly or Azalea. It is undoubtedly the best permanently dwarf deciduous plant for low hedges and borders because of its dwarfness, hardiness and general permanence.

This is the first time this plant has been offered for sale. Due to its slow growth the purchaser is assured of maintenance of the present price schedule. It is suggested that as large sizes cannot well be shipped these grades be planted out for growth on as specimens.
